Selección de Calendario de Vacunas

La funcionalidad de "Anular Calendario" (Schedule Override) en Florida SHOTS permite a usuarios privilegiados a cambiar el calendario de vacunas por antígeno basado en determinación clínica. El cambio alterará el calendario recomendado seleccionado por el sistema al paciente. Este acceso/permiso debe ser otorgado por un Administrador de organización local (Local Organization Administrator (LOA).

OTORGANDO ACCESO PARA ANULAR CALENDARIO

Paso 1

Entre a Florida SHOTS.

Paso 2

Seleccione "Administración" (Administration) del menú de Florida SHOTS luego en "Lista de Personal" (Personnel List).

Paso 3

Seleccione el usuario de la Lista de Personal.

Paso 4

En la página de **Selección de Calendario** (**Schedule Selection**) usted podrá ver todos los calendarios posibles que aplican al antígeno indicado y podrá escoger un calendario diferente del que está actualmente seleccionado. Al tope de la página usted podrá localizar la información del paciente, incluyendo cualquier observación grabada o escrita para cada antígeno.

Usted podrá ver lo siguiente:

 Cuantas dosis serán VÁLIDAS, NO VÁLIDAS, NO PERTINENTES, y cuantas quedan para COMPLETAR las series para cada calendario posible.

Si cada calendario se expande para mostrar detalles, la información adicional estará disponible, incluyendo:

- · La razón para cada dosis listada como no válida o no pertinente
- La razón por la cual el calendario actual fue seleccionado (lo cual puede ser porque fue escogido manualmente)
- Si no es el calendario actual, el calendario corriente mostrará la razón por la cual es el corriente

NOTE: Haga clic en **Expandir Todos los Calendario** (**Expand All Schedules**) para poder ver todos los calendarios comparados con los demás, con la razón para las dosis inválidas o en el símbolo de más de **Mostrar Detalles** (**Show Details**) para verlas individualmente.
