

# Vaccine Utilization Report

Florida SHOTS gives users the ability to create a **Vaccine Utilization Report** which will provide your organization's vaccine usage information that has been entered either manually or uploaded from your EHR during a specified time period. This report can be especially helpful for providers who participate in the Vaccine for Children (VFC) Program to reconcile their VFC inventory. This short guide will give you the step-by-step instructions to create the Vaccine Utilization Report.

## STEP 1

Log into Florida SHOTS.

## STEP 2

Select "**Reports**" then "**Vaccine Utilization**" from the Florida SHOTS menu.

## STEP 3

Complete the "**Vaccine Utilization Report Criteria**" page. Florida SHOTS will extract the vaccine utilization data based on the selection criteria entered.

**NOTE:** You will be taken to the Vaccine Utilization Report List page if you have generated a report in the past. Click on "**Create New Report**" to run a new report.

**Help Text Icon:** This icon when clicked on, will have the help text drop-down appear at the top of the page with an explanation of the criteria fields. Portions of the help text will be highlighted in yellow to indicate the field it pertains to. To close the help text drop-down, you must click on the icon located at the top of the screen. Clicking on the same icon you used to open the drop-down will not close it.

**Date Given From and Date Given Thru:** Enter the desired date range to search for vaccines recorded during that time.

**Vaccine Types:** Select one or more specified Vaccine Types or **“All.”** To select more than one vaccine type hold the [Ctrl] key down while clicking on the vaccine types.

**IMM Service Site:** Select one or more Service Sites or **“All.”** To select more than one service site hold the [Ctrl] key down while clicking on the service site name.

**Funding Program/Program Components:** Select the funding program for the vaccines and one or more VFC Eligibility types (for VFC organizations), Privately Insured, Unspecified or **“All”**. To display vaccines that have no funding program (these would be historical shots), select **“No Funding Program Specified.”**

**Health Crises and Special Conditions:** Select one or more of the additional details that can be noted while recording vaccines. The details are related to the health crisis event your organization participated in, if applicable.

**Report Format:** Select **“Client Detail”** to view on screen and print or **“Excel File - downloaded”** to download an Excel file.

**NOTE:** You may get this pop-up if you select Excel once the file starts opening. Click **“Yes”** to continue opening the file.

**Sort On:** Select how you want the information to be sorted in the report. The available sort options are **“Vaccine Type, then Date Given”**, by **“Date Given, then Vaccine Type”**, by **“Patient Name, then Vaccine Type”**, or **“Funding Program, then Vaccine Type”**.

Click **“Generate Vaccine Utilization Report”** to display or download the report. Florida SHOTS will extract the vaccine utilization data based on the selection criteria entered.

Once complete, the system will automatically take you to the Vaccine Utilization Report List page, where you can select to view your report from the list, which is arranged by date created (newest to oldest).
