

# Vaccine Type Changes - CHDs

FLORIDA SHOTS RELEASE 2015.8

As part of the Florida SHOTS Release 2015.8, new and more detailed Vaccine Types are being added to the system in an effort to better align with the CDC's "CVX" coding standard. In doing so, there will be changes to the Vaccine Types in use now. The following lists display those changes as they pertain to the new Vaccine Types, changes to existing Vaccine Types, and those Vaccine Types that will now be considered obsolete.

## CHANGES TO EXISTING VACCINE TYPES
