

Florida SHOTS™

REMINDER RECALL

FAST & EASY STEPS

Boost Immunization Levels

Reminder Recall is one of the many Florida SHOTS™ tools that help you boost immunization levels in your practice. With Florida SHOTS, your office can run reports that show a list of your patients who are due or overdue for immunizations. Reminder Recall allows you to sort and store shot records in a variety of ways (e.g., by type of shot) and print patient information on mailing labels to send reminder notices to parents specifying the shot that is due or overdue.
